

Gleichenies Push Their Tick-Tocks Ahead One Hour

At a meeting of the town council Monday evening it was decided to adopt daylight saving time beginning this morning—Wednesday—as the result of a petition signed by almost every business concern in town, saving for fast time was presented to the council. Advancing the clock one hour follows the system now in force in the majority of the cities of the province.

While there are many people who disagree with the necessity of daylight saving, certain factors have arisen which exert an influence on the question that should be taken into account. Radio plays a conspicuous part in the every day life of most of us today and the fact that both in Canada and the United States the clock has been switched over for the program means that those who decide to stay on standard time are definitely out of step. To mention only one example, market and general news broadcasts, between the hours of one and 1 p.m. is missed by the man who works until noon standard time.

So far as Gleichen is concerned, telephone orders are being by Calgary and in the on fast time. Orders for machine parts, repairs and other urgent necessities phoned into Calgary up to 4 p.m. will likely be received early next day shipped out on the train leaving early in the morning. By having the same time as the market and general news broadcasts, which has frequently arisen (4 p.m. and standard time being 5 p.m. fast time) is avoided, and so the price remains upon the normal basis.

It is perhaps regrettable that the provincial government has not seen fit to proclaim daylight saving as a province wide measure. Yet, since freedom of choice in the matter has been left entirely in the hands of the people concerned there would seem to be little cause for criticism.

Senator Gershaw Writes From Ottawa

HOW BUDGET IS PRESENTED

Ottawa April 26th

Today the budget will be presented in the House of Commons. For several days the papers have been debating about what the contents may be. Members of parliament have also been expressing opinions. Not except members of the cabinet knows what changes the Minister of Finance will announce. Secrecy must be maintained or investors might take advantage of advanced information to enrich themselves. New policies are in effect the minute the minister states them. A few days ago a member heard at 3 p.m. that from 8 p.m. on that day there would be a change in the excise tax on sugar. At Vancouver it was not 8 p.m. but only 12 m. He phoned out to Vancouver making a sale and saved some \$400. Since then precautions have been taken to prevent anything of that kind.

Formerly members of the press were given copies of the budget address when the minister started his speech. It always takes several hours to really be sure of the changes. It is necessary to look up tariffs rates, orders-in-council and business practices and then to make the application of the new rulings. It would be 3 or 4 a.m. before reliable reports could be sent out.

This year the address will start at 8 p.m. At 6 p.m. the members of the press gallery will be locked in their rooms with all phones and wires shut off. Officers of the department will be with them to make them work out the significance of the changes. Then after 9 p.m. when the new regulations are in effect and business hours are over all through Canada the changes can be broadcasted far and wide.

Every single item of the budget must become the subject of a separate bill and must pass through all the stages. Each bill is debated and business hours are over all through Canada the changes can be broadcasted far and wide. The galleries are all crowded when the finance minister rises. It is at

ways given applause as he starts to give the product of his long, long labor. If the single item fails to pass the government is defeated and an election must be held.

Canada has had some great finance ministers. Great increases have taken place in expenditure in recent years. The national debt between the wars was around three billions of dollars. It is now close to 16 billion. The amount spent by the government was during those years about one-half a billion a year. During War II it was five and a half billion a year and now it will likely be about two billion.

F. W. GERSHAW

Town & District

Born to Mr. and Mrs. Jas. Ostrom a son at the Bassano hospital on May 1st.

"Yankee" Plante who has been living in Seattle for the past 20 years spent a few days in town last week visiting his mother and while here called on a lot of his old friends. In younger days when he lived in Seattle he played hockey with the local club in winter and in the summer time was a pitcher with the local baseball team.

Charlie Long, proprietor of the Rex Cafe here received an airmail letter from China and believe it or not it cost the sender \$3,000 to send the letter to Canada. There are three stamps on the envelope and each one is marked \$1,000. Wonder how those who are howling for inflation would like to pay the above price to send a letter.

Many people believe the reddish brown color of iodized salt blocks is due to its iodine content. This is not true. Potassium iodide, not iodine, is used for coloring, and it is as white as salt itself. A harmless red pigment is, therefore, also added during manufacture so iodized blocks may be easily distinguished from plain salt blocks.

Hogan is back on his old job again delivering express and freight. For some reason he and the C. P. R. are finding that everyone is glad to see him back on the old job since he always a good story to relate when he makes his deliveries. Mr. Hogan says he has more work right now than he can properly handle. He has a horse and when he is not busy with freight and express is busy plowing gardens and it seems that everybody wants their garden plowed immediately. Some how or other the horse got into the way of the work and to save time jumps over the fence to the next plot instead of going out one gate and entering by another. So who says plowing gardens is humdrum work.

Hidden hunger or malnourishment due to unbalanced diet is all too common in this Canada. It is said that two thirds of the children studied in a recent survey were found to be on border line diets, which were short on one to three of the important food groups. In addition to "hidden hunger" the experts do not overlook other things, such as is found in the empty stomachs of Europe and "hunger" due to unvaried and monotonous diet and psychological malnourishment experienced by many in England.

Walter Brackenbury, a resident at Eventide Home for the past four months died rather unexpectedly of a heart ailment. He was born in England and had been in Alberta 40 years, coming to Gleichen from Okotoks. His wife predeceased him some years ago. He is survived by a number of relatives at Okotoks all of whom attended the funeral. The funeral services were held Monday afternoon at 3 o'clock with Major A. Parkinson officiating. Interment was made in Eventide cemetery.

The Alberta Livestock Cooperative "Grow Another Hog" campaign is now underway and will be followed closely by all who are interested in a staple agricultural policy for Alberta. Members of this cooperative are themselves farmers and livestock raisers who appreciate the place of livestock in the agricultural industry of this province. Production or more hogs will help to supply the much needed bacon for Britain. It will benefit the Alberta farmer in the form of increased returns from his hog raisings and will strengthen Canada's increased of long time contribution to the war effort.

CAVALCADE CONDUCTOR—Here is Howard Cadell, Toronto musician who composes, arranges and conducts the music heard on "Canadian Cavalcade" Mondays at 7 and 10 p.m.

Refusal to a worth while export market. The present keen demand for grains cannot last indefinitely. Hog feeding offers a favorable alternative.

Pound for pound, skim milk contains as much protein a little more carbohydrate and as much calcium, phosphorus, iron, the B vitamins and vitamin C as whole milk. It is suggested, therefore, that when the budget won't stretch to whole milk for the whole family, skim milk provides an excellent and healthful substitute in part.

Little Billy was interested in his new baby sister, and stood peering down upon it while nurse was singing it to sleep.

"Nurse," he whispered at last, "she's nearly unconscious, isn't she?" "Yes," nodded the nurse, and continued about the kitchen. Billy was whispering in alarm: "Then don't sing anymore or you'll kill her!"

COOKING UNDER PRESSURE

This title could mean that the person looking after the cooking of the foods has to do it under great difficulty or is hard pressed for time. In this case the meaning is the exact opposite. By cooking the modern way, which is in a pressure cooker, more and more homemakers find they have extra time to themselves, besides discovering that many foods, specially vegetables, have a better color and flavor with less time spent on them.

Cooking under pressure has been practiced for many years by housewives throughout Canada. They have been able, in the canning season to appreciate the advantages of this method, and since the principle involved is the same in the new smaller pressure saucers, they are ready, willing and able to use them.

This is a factor of great importance to every homemaker since there never seem to be enough hours in a day to accomplish all the tasks that fall on her shoulders. So, if this new method of cooking did nothing but save time, time spent over the stove in the kitchen, it would seem then and there become a favorite. Since it also produces foods with good flavor and color, it pleases the whole family and does something towards keeping mother less tired and in good health.

There are several makes of saucepans on the Canadian market. The manufacturer of each makes supplies a recipe book with complete directions which should always be closely followed. These suggested recipes have a thorough knowledge of the use of the saucepan, and are usually then personal recipes may be tried.

GLEICHEN UNITED CHURCH Sunday, May 11th.

Service of Worship 7:30 p.m. Mothers' Day—"Mothers" in the Place of God" will be the subject. The mothers of the world could raise civilization to unprecedented heights and splendor, or they can entangle it into utter destruction.

Pre-discharge medical and dental examinations and treatment are being made by health authorities to ensure that the great majority of Canada's veterans are even healthier, now than when they first enlisted. Not only did they benefit by the routine of service life but they have been offered a fresh start in life, thanks to a thorough check on their physical condition, and early detection of and attention to possible minor ailments. The health authorities recommend such periodic health examinations for everyone.

Preparing For A Big Day of Sports On Empire Day

The committee appointed to arrange for the Empire Day Sports—May 24—are busy these days drawing up a program of sports to be held. Then there will be a long list of sports for the little folks—school boys and girls, which can be depended upon to create much interest and excitement among the small folks as well as the grown ups.

In the evening a big dance will be put on in the hall. Since it will be Saturday evening and the hours of dancing limited the dance will start at 8 o'clock and continue until 12 o'clock.

A Gleichen traffic observer who is also an observer of human nature that causes most accidents, thinks it is almost as definite as the nook-nore which makes people unusually slow. It simply works in the opposite way developing a mania for speed. The victims of this mania are those who have to be always going at a high speed. They try to keep up their speed regardless of obstacles or other people. So they are getting smashed up or smashing up somebody else. And what does it get them, even if they escape damage? In planning a race track at breakneck speed they may save, if they are lucky, a little time. What can they do those few minutes? They waste it in all probability smoking or chatting to relieve the strain. Or else they plunge just as recklessly into their work, and waste time saved and more, by nervous and hurried action. It is alright to be in a hurry, but all wrong to have one's mind in a hurry. The biggest and most successful men, the men who get the most done, are nearly always men who do not let themselves get hurried, and who therefore see clearly and act calmly and make no mistakes.

SEEDTIME AND HARVEST

D. F. GREANEY Director, Line Sales Service, Winnipeg, Manitoba.

Grasshopper and Sowfly Warnings

Forecasts, made by Dominion entomologists and provincial crop officials, indicate that losses from grasshoppers and wheat sawflies are likely to be heavy this year. The time spent over the stove in the kitchen, it would seem then and there become a favorite. Since it also produces foods with good flavor and color, it pleases the whole family and does something towards keeping mother less tired and in good health.

There are several makes of saucepans on the Canadian market. The manufacturer of each makes supplies a recipe book with complete directions which should always be closely followed. These suggested recipes have a thorough knowledge of the use of the saucepan, and are usually then personal recipes may be tried.

Eddie started his job today!

THE MANAGER of the furniture factory in Eddie's town landed a big order. It meant he had to buy a lot of extra lumber, increase his payroll, lose no time in putting the whole thing up to the managers of his local bank. Together they worked out he much money he could need to take care of wages and other costs until he delivered the goods. Then, with the backing of his bank, he got to work on the order.

... And that's where Eddie came in. He was put on the payroll—given his first chance to learn a trade. Right now he's on his way home to tell Mom and Dad how much he likes his new job.

Canada's Foreign Trade

FOREIGN TRADE IS AN IMPORTANT ELEMENT in the economic structure of any nation and it is closely connected with the progress and prosperity of the people. The story of Canada's foreign trade since 1929 has been an encouraging one. Before the outbreak of war in 1939, the Dominion's external commodity trade was estimated at \$1,500,000,000. From that time on it rose steadily until in the years 1944 and 1945 it exceeded \$5,000,000,000. Canadian exports at that time included large shipments of war materials. In 1946, when there were no longer required abroad, the volume of trade dropped to \$4,000,000,000, which still shows a very substantial increase over the pre-war figures.

Has Surpluses To Sell Abroad

While the population remains at the present level, Canada will always have surpluses, including products of her farms, forests and fisheries for export to foreign countries, and we know only too well that our prosperity depends to a large extent on the demands which other countries make for these goods which we have to sell. Since 1939 Canadian export trade has increased from a total of \$800,000,000 in 1939 to \$2,300,000,000 in the first post-war year, 1946. The peak was reached in 1944 and 1945, when shipments of war materials and other goods to foreign countries amounted to \$3,500,000,000. Imports have also advanced steadily, but less spectacularly, having increased from \$65,000,000 in 1939 to nearly \$2,000,000,000 in 1946.

Much Progress Has Been Made

The general rise in Canada's foreign trade, in respect to both imports and exports, is an indication that phenomenal progress has been made since the pre-war years. Comparison of the volume of trade in 1939, the last year before the war, with the volume in 1946, the first post-war year, reveals an increase from \$2,500,000,000. Experts are of the opinion that the figure for 1947 will likely be higher than that for 1946. Newspaper, wheat and wheat flour headed the list of Canadian exports for 1946, and Great Britain, the United States and France were our biggest customers. However, a notable increase was made in shipments to Latin America, twenty countries there having purchased agricultural products and manufactured goods from us last year. Much of the growth of Canada's export trade has been due to the fact that we need in Europe for food and materials for rehabilitation. However, officials are of the opinion that there is no immediate prospect of a recession in foreign trade, and it is to be hoped that we may be able to retain the present volume, which has such an important effect on the progress and prosperity of this country.

LOST VALUABLE SHARES

Imat Pash, khedive of Egypt in 1860, built up a national debt of over \$400,000,000 and had to sell Egypt's shares in the Suez canal to Britain to pay off the debt.

NEW NERVE DISEASE PUZZLES DOCTORS

A mysterious nerve disease which concentrated particularly in the fingers, legs and toes, has been reported by Dr. Robert Wartenberg, assistant clinical professor of neurology in the University of California Medical School. Wartenberg said the unnamed disease followed no discernible pattern, was no handicap but was very stubborn. The neurologist said he had studied the disease for 10 years but still could not trace its cause. He said it apparently was the result of a virus of low virulence which attacks the skin or superficial nerves of the human body exclusively.

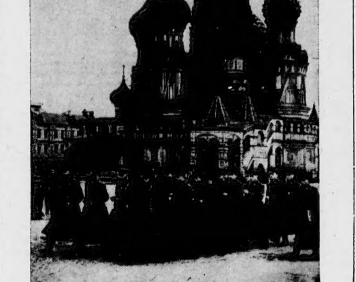

GEMS OF THOUGHT

REDEMPTION TIME
What is meant by redeeming time? It is to fill the hours full of the rightest thought, to fill them with the life of thought, feeling, action, as they pass.—Clarke.
To worry about tomorrow is to fail of devotion to the tasks of today, and to spoil both days.—William De Witt Hyde.
No man can be provident if his mind is not present in the choice of his company.—Jeremy Taylor.
Very few people are good economists; they are good at losing their fortune, and still fewer of their time.—Chatterfield.
A great amount of time is consumed in talking nothing, doing nothing, and idleness as to what one should do.—Mary Baker Eddy.
Look upon each day as the whole of life, not merely a section; and enjoy and improve the present without wishing through haste to rush on to another.—Huxton.
To Feel Right — Eat Right!

FUNNY And OTHERWISE

They were walking arm and arm. "Darling," she said coyly, "which do you like better, a homely woman with great intelligence or a pretty girl without brains?" "Honestly, sweet," he replied, "I prefer you to either."
The six-year-old heir apparent returned home dejectedly from his first day at school. "I don't like it," he said to his mother. "You won't like it tomorrow," he muttered. "And why not?" asked his mother. "Well," the youngster replied, "I can't read and I can't write, and they won't let me talk—what's the use?"
The concealed young man was even more boring than usual. "It's a fact," he said with pride, "that people often take me for a member of the Guards."
"Really?" she drawled. "Shin—laway—mud—or black?"
"My father has influenza all the time."
"Doesn't he know that whisky is good for influenza?"
"Yes, that's why he has it all the time."
A Welshman who was very proud of his bass voice was describing a wonderful dream he'd had. "It was in a mighty choir," he said, "5,000 separate, 5,000 alone, 5,000 tenors—all singing together double forte."
"It must have been wonderful," said the listener. "But what about the basses?"
"That was it," said the dreamer. Suddenly the conductor stopped the choir and, turning to me, said: "Not quite so loud in the bass, please, Mr. Jones!"
The shepherd's daughter was going to marry a town-dweller. Wanting to make her father look smart at the ceremony, she got him to agree to wear a hat. The shepherd went into a store. Clerk: "What size, please?" shepherd: "I don't know." Clerk: "We'll try a six and a half first."
Farmer: "I can tell you, my friend, that horse knows as much as I do."
Fric: "Well, don't tell anybody else; you might want to sell him some day."
The Kansas City Star got in trouble a short time ago through watching headlines. On the same day the highly respected wife of the Kansas City mayor passed away, and the city's oldest and ugliest low house burned. Unfortunately the headline over the passing of the good lady read "Another Eyesore Gone."
"Johnson is no conciliator." "Yes, on his last birthday he sent a telegram of congratulations to his mother!"
"What can do anything a hard can do nowadays?" boasted the alarmed young man. "There's one thing they can't do like a bird," said his friend. "Oh, and what's that?" "Sing sweetly while sitting on a barbed-wire fence." 273

MOSCOW GUARD CHANGES—Many major problems were left unsolved when the foreign ministers' conference closed in Moscow recently. Here is the ceremonial changing of guard.

NECESSARY TO FILL OUT FORM TO GET U.S. MONEY

OTTAWA—The Foreign Exchange Control Board said Canadians drawing any United States money from Canadian banks now had to fill out a form.

Previously a Canadian going to the U.S. on a visit could draw up to \$100 in U.S. currency without any formalities. Any additional "reasonable amount" could be obtained by getting a permit from a bank.

The board said the new step had been taken because it had been found that some persons were going from bank to bank, drawing up to \$100 from each so that their final total was well beyond the \$100 limit.

SHIP DESIGNED TO MEET EMERGENCIES

The Canard White Star liner Queen Elizabeth, actually a "ship within a ship," has two bottoms—an inner and outer—with an intervening space of nearly six feet divided into numerous watertight compartments. This construction was devised as precaution against just such mishaps as her recent grounding near Southampton.

Peanuts were known as far back as 850 B.C.

OUR COMPLETE SHORT STORY—

CENTURY OF PROGRESS

By M. J. COLLINS

DAD and I were thinking out turns in the turnip patch near the life-line between Old Man Murphy's place and ours.

"Now I wonder what's up?" Dad said with surprise as he leaned on his hoe and looked across the field towards the Murphy place. Two cars were driving up the Murphy's lane. Of course this was a long time ago so you know what the cars were like—high touring cars, model T Fords. We went on with our hoeing and after a while one of the cars drove away. Shortly after that Old Man Murphy hurried across the fields towards us.

"Bought me a car, Tom," he said, clambering over the rail fence.

"A car?" Dad exclaimed, as he never even noticed them driving up the lane. "What do you want with

one of those things? You don't know the first thing about them."

"Nohin to it," George Murphy said hoarsely. "That's the century of progress, us farmers got to keep up with it."

"Sounds like the salesman was stringing you," Dad said dryly. "What else did he tell you?"

"Got here all right down," Old Man Murphy continued, "All I got to do is follow what it says. Can't make a mistake driving it. Croner over and see it," he invited.

"I think I will," Dad accepted, throwing his hoe down between the rows. "Let's go, Rick, maybe we'll be asked to buy one some day."

"What did you pay for it, George?" he asked as we headed towards the Murphy place.

"Well—she cost a pretty penny, yesir, a pretty penny! but I think she's not worth it. Seven hundred dollars, every cent of it."

The youngest Murphy girl was out sort of fondling the car and cooing over it, at least that's the nearest way to describe it, when we arrived. "Aigoo, it's high!" Dad looked at it with minglings. "I'd be afraid the wind would blow it over."

I got in the front seat to have a good look at things but Maggie Murphy gave me much dirty looks that I got out again.

"Let's see," Old Man Murphy had dug a sheet of paper out of his pocket. "You push in this, pull out that, advance the spark and gas—what does advance mean, Tom?"

"Pull them down," Dad answered. "Step on this—and that's all there is to it. Want to go for a ride?" he offered. "I'm going out in the hay field and drive around to get the hang of it."

Dad shook his head. "Go ahead, we'll watch this." That stopped me from saying I was going.

Old Man Murphy got in, "Well, here goes!" He grinned.

I was watching everything he did. With a roar the car leaped into sudden motion, kicking up dirt and gravel. George Murphy looked more surprised than anyone. The car lurched out into the field and roared around a shed and gas—what does advance mean, Tom?"

"Well," Dad said sitting down on the edge of the Murphy verandah. "Looks like Old George has got the hang of it."

He whizzes by again and yells at us, we waved gaily back. Everytime he went by he yelled. A gust of wind blew a piece of paper by and Dad glanced at it.

"Good gosh, old George has lost the instructions!"

The car went roaring by again with old George hanging on for dear life. "Turn the key off," Dad roared but the car was making so much noise I don't think George could have heard Oshied how his trumpet even if he'd been sittin' in the back seat.

Around and round went the car faster and faster, swaying and rolling like a thing possessed.

"Stop the thing!" Stop it!" Old George roared at the top of his voice. Maggie became so excited that she jumped up and down like she was standing on a hornet's nest.

Cronah! The car went through the rail fence and into our turnip patch. "Look after Maggie!" Dad shouted as he sprinted across the field.

She was out cold and as heavy as a log, I dashed into the house and got a dipper of water and soaked her. Boy, she came in a hurry and took a nasty wipe at me. If it had of connected it would have knocked me into the middle of next week.

"Oh, my poor, poor father," she said scrambling to her feet.

SAVED BY DOGS FROM BEARS PANGS—But for the timely assistance of his two faithful dogs, Joe Joyce of Cairns, Alta., might have been killed by a wounded and enraged bear. Joyce was out hunting in the bush country around his home recently when the dogs suddenly discovered a bear in his den, apparently just awakened from his winter nap. Unable to shoot the bear four times but somehow failed to get in a fatal shot. The enraged animal jumped out of his den and headed straight for Joyce. Joyce released in a hurry. Joyce started to run. But he was wearing snowshoes and tripped. In a flash the bear was upon him, biting the man's right leg, his left thigh, his left arm and mauling him badly. Joyce screamed and the dogs rushed to the rescue, sinking their teeth into the bear's hind legs. The bear let go his victim, jumped over him and ran off with the dogs in pursuit. Although bleeding freely, Joyce managed to make his way about a mile and a half to the camp of a friend.

Dad came back helping Old George. He looked more than a little pale around the gills. He kept clutching at his chest and moaning. "Oh, my heart! Oh, my heart!"

We got him into the house, he had aged ten years, Maggie flitted away and got his favorite medicine—a small glass—that helped his heart.

"How'd you feel now, George?" Dad asked.

"I'm a little better now," he said cautiously. "That—'that' deathtrap!" He shook his fat up in the direction of the car. "Hit up the loan, Tom, we'll have it up on the threshing-iron, I'm through with that—"

George called the Ford several names and the name car certainly wasn't mentioned once.

"It's sure some contraption," Dad said but he made no move to go and get the horses. "Take a brave man to handle one of them."

Old George swelled up at that. "Yes, sir, A Brave man."

"But I wouldn't be surprised if it cut about twenty years off a man's life," Dad added slyly. That made Old George clutch at his heart and Maggie said a little more sitting.

"Want to buy it, Tom? It's in your turnip patch," Old Man Murphy suddenly suggested.

Father shook his head. "I haven't got the nerve to drive it, George."

"I'm an old man, Tom," George pleaded and right there as far as he was concerned the century of progress slipped into reverse.

With just the right shade of reluctance father let George talk him into buying the car. I didn't say a word. I knew what Dad was up to. He finally said he'd buy it and got it for three hundred dollars less than Murphy had paid for it.

As we headed back towards our turnip patch Dad was pleased with himself. "Never know what'll happen when you're hoeing turnips, eh son?"

Teats with butterflies prove that the color, and not the odor, of flowers attracts them.

Prospects Of New War Is Remote

OTTAWA.—After consulting various factors with the unemotional logic of the military analyst, one of the higher officials involved in Canada's defence planning estimated that the odds were 100-1 against any devastating air assault on high priority targets on the North American continent within the next 10 years.

In an interview setting out his own personal conclusions, Col. W. W. Gofforth, retiring deputy director of defence research, said he felt that odds against a major war would start at 200-1 against in 1947, decline steadily until 1961-62 and would give way to a steady lessening of tension and risk after 1962."

Col. Gofforth is returning to private business in Toronto after being the right hand of Gen. Robert, director-general of defence research, who sanctioned his statements.

"INVASION" WIRE COMING TO CANADA

TAPLOW, Buckinghamshire, England.—The "pyramide", 10,000 tons of barbed wire prepared for the invasion of Europe and which lay rusting for seven years, are going to Canada.

But Victor Hardwood, who purchased the wire from the British Government and accepted the overseas offer, has had his troubles converting his investment.

He originally intended to have the wire melted into steel ingots, but Britain had no presses sufficiently powerful.

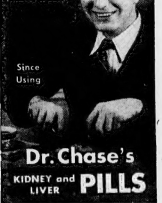

When the Canadian purchaser showed up, so did innumerable shipping transport problems. Dock workers and stevedores demanded "dirty" and "bending" money for handling the wire. The obstacles now have been surmounted.

BE A HAIRDRESSER

Ladies earn more money—learn hairdressing—practising, getting ambitious women unlimited opportunities. We positively guarantee complete, thorough training under direct supervision of nationally known instructors. Easy pay, as you visit, work, or take full time.

SELECTED RECIPES

COCOA SYRUP

1 cup corn
1/2 cup sugar
1/2 cup corn syrup
1/2 teaspoon salt
1/2 cups cold water
1 teaspoon vanilla

Combine cocoa, sugar, syrup, and salt in saucepan. Add water slowly and place over low flame, stirring until smooth, then simmer 3 minutes, stirring constantly. Add vanilla. Turn into jar; cover with wax paper.

Serve hot or cold as sauce or use in making delicious cocoa or corn syrup. This syrup may be made using 1 to 1 1/2 cups sugar instead of sugar and corn syrup.

To make cold drinks, use 2 tablespoons syrup to 1 cup milk.

CLEVER JUDY MOCHA FROSTING
1 cup sifted confectioners' sugar
1 egg unbeaten
1 cup strong coffee
3 squares Baker's Unsweetened Chocolate, melted

1 tablespoon softened butter
Combine ingredients in order given, beating with rotary egg beater until blended. Place bowl in pan of cracked ice or ice water and continue beating until right consistency to spread (about 3 minutes). Mocha frosting to cover tops of two 8-inch layers, top and sides of 8x8x2-inch cake, top of 10x6x2-inch cake, or small angel food cake. For chocolate flavor, substitute milk for coffee.

TURKEY CONTRIBUTED
TULIP TO EUROPE

The tulip was first introduced into Europe from Turkey in the sixteenth century. After 1648 as a cult of tulip growing in Holland, called tulipomania, made the Dutch famous exporters of bulbs. Sometimes as much as \$5,000 was paid for a single bulb at that time. Now we can have more perfect blooms for a little while and a few cents.

China is about a third larger than continental United States. It is 1,860 miles from north to south and more than 2,000 miles east to west.

what's your score on Sleep?

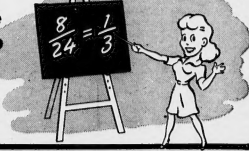

YOU spend about a third of your life at it — so you might as well know something about Sleep. What's your score on the following statements — true or false?

① sleeping on the left side strains the heart—
false: It makes no difference whether the average person sleeps on his back or either side.

② it is better to lie absolutely still when asleep—
false: The muscles of the body are benefited by periodic changes of position.

③ you can drink postum at any hour and sleep perfectly—
true: Postum is caffeine free—contains no stimulants of any kind.

Try Postum! Make it right in the cup, with boiling water or hot milk. Costs less than a cent a serving!

the earlier hours of sleep are the best—
true: Science has found the first four or five hours are most beneficial.

④ sleeping on the left side strains the heart—
false: It makes no difference whether the average person sleeps on his back or either side.

⑤ it is better to lie absolutely still when asleep—
false: The muscles of the body are benefited by periodic changes of position.

CANADA'S TEXTILE INDUSTRY is not generally regarded as being anything very exciting. It is true that in normal peacetime years textiles led all other industries in employment and wages paid. But that means we are just a part of regular daily living in Canada. It makes us about as exciting as a kitchen table.

DURING THE WAR, Canada's hundreds of textile plants turned out millions of yards of urgently-needed supplies. Today we are working hard to catch up with the heavy and growing civilian demands of the post-war. We provide thousands of jobs to Canadian citizens at new high wage levels. Thus, these factors do not seem exciting but it is nice to know that we have a place in Canada's way of living. A kitchen table may not be exciting but it is important to the household.

Search is Underway For E. B. Bottles

E. B. Bottles, believed hiding in attics, basements and garages became subject for intensive search by Gleichen citizens.

Commonly known by the full name of Empty Beer Bottles, this culprit is responsible for the present shortage of bottled brewery products, and consequently a reward of 20 cents per dozen is being offered for successful apprehension.

Housewives are taking the lead in this search for E.B. Bottles, realizing that recovery will serve a three-fold purpose. It will help consumers to get more of their favorite beverages; it will provide more space in cupboards, pantries, basements and garages, and it will put badly needed bottles back on the job and enable bottlers to continue full operation.

All citizens are urged to be on the lookout for the fugitive. Hunting favorite haunting places around the home should be thoroughly searched and in the event of apprehension, Deliveries Limited, Agents for Alberta Brewing Industry, should be notified.

CASH REWARD WAITING

Arrangements have been made in the cities for taking "Bottles" into custody at the place he is discovered, and escorted to depot. Cash reward will be paid at some of arrest amounting to 20 cents per dozen. Freight agents are cooperating and all rural vigilantes need to do is turn "Bottles" over to one of these agents and he will be escorted collect to nearest Deliveries Limited Depot at Camrose, Calgary, Blairmore, Banff, Drumheller, Medicine Hat, Lethbridge or Macleam.

TOWN AND DISTRICT

Miss B. J. McQueen, Reg. N., left Tuesday for Turner Valley where she will join the staff of the hospital there for the summer.

Mrs. W. MacCallum and children of Calgary are visiting at the home of Mr. and Mrs. A. F. MacCallum.

Mr. Frank Daw of Calgary spent the first part of the week in town looking after his property interests here. Mr. Daw is one of Gleichen's real old timers and moved to Calgary more than a year ago to look after his property interests. His visit to town Monday was the first since last November. As he has lived in Gleichen the major part of his life he likes to pay the town and district a visit occasionally and his friends are always glad to see him.

Elliott Evans was up from Lethbridge during the weekend visiting relatives and friends.

THE DRY BONUS

There is always much confusion and many head aches about the "Dry Bonus". The object the Dominion Government had in mind in paying this bonus was to assist actual farmers when there is a partial or complete crop failure. The levy of 1 per cent on all grains gave the government the amount of \$10,000,000 in the years 1939 to 1944 and the amount paid out as bonus was \$45,500,000. The Act is rather complicated and hard to understand and inspectors have been appointed who are familiar with every detail.

Payment can only be made under the terms of the Act and very definite regulations are necessary in order to be fair to the tax payer and to the farmer who has suffered a crop failure. There are always borderline cases and often a farmer who has a poor crop cannot qualify for the bonus because he has not become familiar with the terms. The bonus is only paid to actual farmers, not to landlords, banks, machine or mortgage companies. In a general way no person shall be considered to be a farmer or be eligible for the bonus unless:

- (1) He is the owner or tenant of a farm from May 1st to November 1st.
- (2) He lives on the farm and his primary occupation is farming or he lives within 20 miles of the farm and has no occupation other than farming, and
- (3) He is responsible for the farm operations and the disposal of the farm products, and
- (4) The farm has been more than 20 acres or if less is just being developed, and
- (5) If living with a parent or brother, is 20 years old and operates the farm as a separate unit and the farm consists of at least one quarter section.

As with all legislation, some get paid who really should not and many more who are most deserving cannot qualify because of not understanding or observing the terms. No award shall be made on the following lands:

- Experimental farms.
- Market gardens.
- Ranches.
- Farms operated by Indians on Indian reserves.
- Submarginal lands ordered evacuated by any provincial government.

Irrigated lands on which the yield per acre is more than 12 bushels of wheat or the equivalent in other crops.

All must pay the one cent into the fund but there are many grain producers who never have a chance of qualifying for the bonus. The Act is not popular with them and not popular with other producers generally as payments are made only on the prairies. If efforts were made to widen the items there would be the danger of the whole act being cancelled.

F. W. GERSHAW.
